INDONESIA FAMILY LIFE SURVEY 2014

BOOK K  
(CONTROL BOOK)

SECTIONS: SC, AR, KRK, IK, CP

Respondent is a HH Member 18 Years or Older who is Knowledgeable About Characteristics of Household Members

RESVIS.	HOUSEHOLD INTERVIEWED ?	1. Yes 3. No➡ C1
---------	-------------------------	---------------------

**INTERVIEWER** :     

**Informed Consent (to be read to each individual the first time the individual is interviewed):**

Good morning/afternoon/evening,

My name is \_\_\_\_\_ and my colleague here is \_\_\_\_\_. We are both from SurveyMeter, an independent research organization based in Yogyakarta. We are currently conducting the fieldwork for Sakerti 5, a survey project conducted with collaboration with RAND Corporation. We will start by reading the informed consent form and ask whether you would be willing to participate in the survey. You can ask about anything that is not clear at any time. Please do discuss with your family members before deciding to participate in the survey.

The IFLS is a longitudinal survey that was first fielded in 1993, and again in 1997, 2000, and 2007. You may remember that we visited your households to interview you or your household members in 2007 or in an earlier round. Your household was interviewed since it was one of the households or part of the households that were randomly chosen to participate since the beginning of the survey in 1993. This year, we will visit the same households again to conduct the interview and to see whether there have been some changes since the last time we visited you.

If you choose to participate in the study, our interviewer will first ask you about your basic demographics, family information, health status, health care and insurance, work, retirement and pensions, household and individual income, expenditure, and assets, etc. Then the interviewer will give you a physical examination to better understand your true health conditions. The measurements include height, weight, waist circumference, blood pressure, peak meter flow lung capacity, grip strength, balance, timed walk, and timed sit to stand. We will also do a finger prick to measure your blood hemoglobin level [and to collect blood spot on a filter paper which we will store and use in the lab for analysis of C-reactive Protein that can be used to measure inflammation and the risk to cardiovascular diseases and HbA1c that can be used to measure risk of diabetes].

This survey will take some time to complete, but we will be doing it at your convenience. If you need to take a break or run some errands, please let us know so we can stop the interview and continue later in the day or the next day.

Generally, the study will pose no health risk. The blood drawing procedure will not transmit diseases to you, because the syringe and needle are new and disinfected. The small amount of blood drawn has no harm to your health. There maybe discomfort or very mild pain, we will help you deal with it.

If you agree to participate in the survey, the physical examination and test results related to your health will be feed back to you directly. And the information you provided can be used to help

make health, retirement and social security policies suitable for Indonesia, which will benefit you and other people just like you.

The interview is completely voluntary and all survey information will be kept confidential. With your consent, we also will take picture of you and the front of your house solely for the purpose of confirming your identity and your address in the follow up survey. The photos and all your personal records including, questionnaires, and physical examination and test results are confidential; we will not tell others, include your family, friends, local hospitals, etc. Your personal information, including name, address, phone number, and other information which can be used to identify you will not be disclosed. You are identified by a number in the questionnaires and test records, which will be stored safely in IFLS5 project office. You may withdraw from the study any time, which will not impact any of your benefits. The researcher will keep your information confidentially until it is destroyed, and your information will not be used or disclosed during this period.

If you agree to participate in this study, all the interviews, physical examination, tests and counseling are provided to you for free. You do not need to pay anything.

If you agree to participate in this study, you will get Rp \_\_\_\_\_ as a token gift of appreciation for the time you spend with us.

If you have any questions about this study, you may contact Bondan Sikoki at SurveyMETER at email address: [sm@surveymeter.org](mailto:sm@surveymeter.org) atau telpon 62-274-4477464 dan fax: 62-274-4477004

### Interviewer's Statement

*"I have informed the respondent about the background, goals, procedure, risks and benefits of the survey, given him/her enough time to read the informed consent and discuss with others, and answered all questions related to the survey; I have informed the respondent that he/she can contact the SurveyMETER, when having problems about the survey and provided the accurate contact information. I have informed the respondent that he/she can withdraw from the survey anytime. I have informed the potential respondent that he/she can get a copy of this informed consent with signatures of mine."*

☐ Signed by interviewer. Interviewer name: \_\_\_\_\_ day/month/year

**Respondent's statement:**

*“I have been read the informed consent and I agree to participate in”:* ☐ **questionnaire survey**

SECTION AR (LIST OF HOUSEHOLD MEMBERS)

HOUSEHOLD (RT):	is a person or group of persons who occupy a part of or an entire building and who usually live together and eat from the same kitchen. What is meant by eating from one kitchen is that the arrangement to fulfill daily necessities is jointly managed.
HEAD OF THE HOUSEHOLD (KRT):	is a person among the group of householders who is responsible for satisfying daily necessities of the household or a person who is regarded/assigned as the head of the household.
HOUSEHOLDER (ART):	is anyone who usually lives in the household, whether she/he is at home during the survey or is temporarily absent. A householder who has been away for 6 or more months, and a householder who has been away for less than 6 months but plans to move out/be away for 6 or more months is not regarded as a householder. A guest who has stayed in the household for 6 or more months or a guest who has stayed in the household for less than 6 months but plans to stay for 6 or more months is regarded as a householder. (THE NAME OF A HOUSEHOLDER IS TO BE WRITTEN ON ONE LINE ONLY.)
